

## **Saving Green All Around.**

### **How does your building rate?**

Most people think that they need to spend a lot to improve their building's energy performance. At Tozour Energy Services, we utilize our state-of-the-art Sustainability Services Center to monitor data from building systems and spend maintenance dollars on the problem areas identified. This way, problems are quickly pinpointed before they cost you money, and systems are always running at optimal efficiency. Sustainability Services has been achieving dramatic energy expense reductions...and helping reduce buildings' impact on the environment.
